

MALCOM KIPKEMOI

Full-Stack Software Engineer

Nairobi, Kenya | +254 725 606 605 | mrono2637@gmail.com | linkedin.com/in/malcolm-ronoh-68522a220 | github.com/malcomic

PROFESSIONAL SUMMARY

Full-Stack Software Engineer specializing in JavaScript/TypeScript and modern web application development. Experienced across the full software development lifecycle, from requirements gathering and system design to development, testing, deployment, and maintenance. Skilled in React, Node.js, Express.js, Next.js, Prisma ORM, and PostgreSQL, with experience building responsive web applications, Progressive Web Apps (PWAs), and RESTful APIs. Experienced in integrating payment platforms such as M-Pesa Daraja API, Paystack, and Stripe, as well as AI-powered APIs, and deploying applications to cloud platforms including Heroku and Vercel. Brings additional expertise in data analytics and digital marketing, enabling a strong understanding of user experience, application performance, and data-driven product improvement.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, PHP, Java, HTML5, CSS3

Frontend: React, Next.js, Vite, Tailwind CSS, Bootstrap, Responsive & Mobile-First Design, UI/UX Optimization

Backend: Node.js, Express.js, RESTful API Design, Prisma ORM

Databases: PostgreSQL, MongoDB, Neon (Cloud PostgreSQL), Database Migration & Schema Design

Cloud & DevOps: Heroku, Vercel, Git/GitHub, CI/CD Workflows, Environment Configuration, CORS & Security Hardening

Payments & Integrations: M-Pesa Daraja API, Paystack, Stripe, Third-Party API Integration

Other: Progressive Web Apps (PWA), Cybersecurity Best Practices, Agile Collaboration, Cross-Functional Teamwork, Debugging & Troubleshooting, Data Analytics

PROFESSIONAL EXPERIENCE

- Freelance Full-Stack Software Engineer Self-Employed, Remote** January 2026 - Present
- Design, develop, and deploy full-stack web applications and Progressive Web Apps (PWAs) for clients using React, Node.js, Express, Prisma ORM, and PostgreSQL, managing projects from requirements gathering through production deployment.
 - Built and launched CoachMauriceke.com, a fitness coaching platform, including an AI-powered meal plan generator integrating Gemini and Groq APIs with a provider fallback chain, and converted the application into a PWA using vite-plugin-pwa for offline-capable mobile access.
 - Developed and deployed ThikaRoadFitnessCommunity.co.ke, a ticketing platform for a Kenyan fitness community, integrating M-Pesa Daraja API and Paystack for online payments and implementing QR-code ticket scanning with an Express/Prisma validation backend.
 - Built NursePath, an e-commerce platform selling NCLEX-RN exam-preparation digital products to nursing students, using React/Vite and a Node.js/Express/Prisma backend with Stripe payment processing; led ongoing migration to Next.js to improve SEO and enable server-side rendering.
 - Migrated client databases from local PostgreSQL to Neon cloud PostgreSQL and resolved multi-domain CORS, buildpack, and deployment configuration issues across Heroku and Vercel environments, ensuring reliable production uptime.

- Configured, maintained, and troubleshoot Ethernet cabling, switches, and Cisco routers, ensuring secure and reliable network connectivity across the department's ICT infrastructure.
- Installed and maintained operating systems (Windows 10/11), Microsoft Office Suite, antivirus software (ESET, Kaspersky), and specialized government systems including IFMIS, optimizing workstation performance and minimizing downtime.
- Set up new computer workstations, configured and maintained printers, and provided hands-on technical support to staff, improving operational efficiency across the department.
- Managed boardroom and virtual meeting setups, integrating projectors and smart displays with conferencing platforms (Zoom, Google Meet, Webex) to support seamless internal and external communication.
- Implemented data backup protocols and enforced ICT security standards and software licensing compliance across department systems, supporting the department's governance and audit requirements.

Social Media Manager & Digital Content Developer Bizz.ke, Nairobi, Kenya

April 2024 - April 2025

- Designed and deployed responsive social media content across Facebook, TikTok, and LinkedIn to boost engagement and brand visibility.
- Developed and executed platform-specific, data-driven social media strategies using Meta Insights and Google Analytics to track KPIs, growing audience reach by 50% over 6 months.
- Applied software development and automation principles to optimize marketing workflows and implement A/B testing, improving campaign ROI by 20%.
- Partnered with design and development teams to align content with UX/UI best practices, ensuring seamless user journeys from social platforms to company products.

PROJECTS

Fitness Coaching App (coachmauriceke.com)

- Designed and developed a fitness coaching platform with an AI-powered meal plan generator integrating Gemini APIs, and converted the application into a Progressive Web App (PWA) using vite-plugin-pwa for offline-capable mobile access.

NursePath

- Built an e-commerce platform selling NCLEX-RN exam-preparation digital products to nursing students, using React/Vite and a Node.js/Express/Prisma backend with Stripe payment integration; currently migrating to Next.js to improve SEO and enable server-side rendering.

Thikaroad fitness community (thikaroadfitnesscommunity.co.ke)

- Developed a ticketing platform for a fitness community, integrating M-Pesa Daraja API and Paystack for online payments and implementing QR-code ticket scanning with an Express/Prisma validation backend

Dairy Farming Management System

- Designed and developed a web-based system to manage dairy farming operations using PHP, HTML, CSS, JavaScript, and Bootstrap, with features for livestock records, milk production tracking, and financial reporting.

EDUCATION

Bachelor of Business and Information Technology (IT)*Mount Kenya University, Nairobi, Kenya (December 2025)*

High School Education (KCSE)

Rongai High School, Nakuru, Kenya (April 2022)

Primary School Education (KCPE)

Laboso Vision Academy, Kericho, Kenya (2017)

CERTIFICATIONS & TRAINING

- Digital Product Development Certification (2024)
- Data Analysis Certification (2024)
- Cyber Security Certification (2023)
- Peer Counselling Certification (2023)
- Taifa Teule Leadership Experience Certification (2023)

LANGUAGES

English (Fluent)

Kiswahili (Native)
